## MERN Stack Developer

📞 8196972171 @ deepanshuheer27@gmail.com 🌐 [GitHub](#) | [LinkedIn](#) 📍 B-1/1002/11 Ram Nagar, Jalandhar, Punjab

### SUMMARY

MERN Stack Developer with 1 year of hands-on experience in full-stack web development and project management, specializing in ReactJS and Node.js. Successfully built a responsive eBook platform focused on user experience and developed a fully functional dashboard with seamless API integration. Seeking a MERN Stack Developer role at an innovative company where I can contribute my technical expertise and teamwork skills to build scalable, user-friendly applications.

### PROJECTS

#### Ebook Store India

📅 12/2024 - 04/2025

🌐 <https://ebookstoreindia.com>

Project focused on creating an eBook platform for browsing and reading online

- Built the entire frontend from scratch using ReactJS and Tailwind CSS, ensuring a clean, responsive, and maintainable UI based on client requirements.
- Implemented API handling with Redux Toolkit, ensuring smooth data flow and state management across the application.
- Collaborated with the client to refine UI elements and reworked the frontend multiple times, aligning with evolving feedback to ensure satisfaction.

#### Remotlink

📅 04/2024 - 10/2024

🌐 <https://institute1.remotlink.com>

A project that involved creating a dashboard with integrated APIs

- Developed the client-side and admin dashboard from scratch using ReactJS and Tailwind CSS, transforming Figma designs into responsive, interactive interfaces.
- Integrated essential APIs to enable core dashboard functionalities, ensuring efficient data flow and seamless user interaction.
- Resolved client-side UI bugs and optimized API integrations for smooth, reliable performance across devices.

#### ProohAI

📅 11/2024 - 12/2024

🌐 <https://prooh.onrender.com>

Library project showcasing landing page animations

- Built a fully animated landing page using GSAP for animations and Matter.js for physics-based interactions.
- Explored animation libraries for a better user experience
- Created smooth, timeline-based animations for interactivity

#### Cleaning Service Backend

📅 09/2024 - 11/2024

Backend development for a cleaning service application

- Developed APIs for user authentication, cart management, and service booking
- Integrated Stripe Payment Gateway for secure payment handling
- Designed and managed the MongoDB database for scalability and performance optimization

### EDUCATION

#### B-Tech

##### DAV University Jalandhar

📅 10/2020 - 05/2024 📍 Jalandhar, Punjab

### EXPERIENCE

#### MERN Stack Developer

##### Kreativantech

📅 02/2024 - 04/2025 📍 Chandigarh

A company focused on web development and technology solutions

- Completed tasks efficiently, both individually and as part of a team
- Learned new technologies and best practices while collaborating with team members
- Shared knowledge and insights to support team growth and project success
- Worked on both backend and frontend development, ensuring smooth integration and functionality
- Gained valuable hands-on experience and delivered high-quality results in every project

#### Frontend Developer

##### Best Computer Institute in Jalandhar

📅 05/2022 - 07/2022 📍 Jalandhar, Punjab

Company Provide IT Training on different different technologies.

- Achieved a seamless integration with back-end systems by employing RESTful APIs and optimizing data flow.
